PROFILE

BS Information Technology graduate (Cum Laude, Class Rank #2 Overall) with hands-on experience in software testing, quality assurance, full-stack development, and web-based system implementation. Experienced in executing software tests, identifying defects, documenting issues, and collaborating with developers to improve application quality. Knowledgeable in manual testing, test documentation, Agile development practices, PHP, JavaScript, React.js, MySQL, and REST API integration. Seeking to contribute as a Junior Software Quality Analyst by ensuring reliable, user-focused, and business-aligned software solutions.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML5, CSS3

Frameworks: React.js, React Native, Node.js

Database: MySQL, MariaDB

Tools & Platforms: VS Code, Hostinger, ChatGPT, Claude AI

Software Testing & QA: Manual Testing, Test Case, Bug Identification

Development Practice: Agile Development, SDLC, System Deployment, Responsive Web Dev

EXPERIENCE

ARC System Solutions Co. (OJT Intern)

Mataas Na Lupa, Lipa City

Full Stack Developer & Software Testing Intern

2025

- Developed and tested an e-commerce platform with customer and admin portals, payment integration, inventory management, and automated order processing using HTML, PHP, and MySQL
- Performed functional testing to validate system features, workflows, and user interactions before deployment.
- Identified and resolved software defects during testing, improving system stability prior to deployment.
- Conducted website testing to improve reliability, usability, and overall application quality.

PROJECTS

IoT-Based Health Kiosk for Vital Signs Capturing and Appointment Scheduling for SJPCF

Capstone Project

- Served as the Front-End Developer and Team Leader for the capstone project team.
- Conducted system validation and testing to ensure features worked according to project requirements.
- Integrated REST API services and worked with Node.js and MariaDB for system functionality and database management.
- Led project planning, task delegation, and coordination to ensure timely project completion.
- Presented the research project during the Research Forum 2026.

Payroll Management System
School Project

- Developed a payroll management system using HTML, JavaScript, CSS, and MySQL to automate employee salary and tax computations.
- Tested payroll computations, report generation, and system workflows to ensure accurate results.
- Created automated payroll reporting features to reduce manual computation errors.

E-Commerce System
OJT Project

- Developed a full-stack e-commerce website for customized cake ordering and ready to order cake using PHP, CSS, HTML, MySQL.
- Built dynamic product customization features allowing users to select cake sizes, add-ons, and multiple options using JSON-based configurations.
- Implemented automated stock synchronization, order total computation, and real-time inventory updates.
- Integrated PayMongo payment gateway supporting GCash, Maya, and Cash on Delivery (COD) transactions.
- Conducted functional testing for ordering workflows, stock updates, and transaction processes.
- Deployed and managed the system on Hostinger for real-time data synchronization.
- Developed responsive and user-friendly interfaces with a strong focus on front-end development and user experience.

EDUCATION

Westmead International School	Alangilan, Batangas City
Bachelor of Science in Information Technology	2022 - 2026
Cum Laude GWA: 1.25	
Graduating Class Rank: #2 Overall	

ACHIEVEMENT

• Dean’s Lister Westmead International School	2022 – 2026
• Research Forum Presenter	May 2026
• Second Place – Quiz Bee (BITS) Lipa Convention Center	October 2025
• TESDA NC II – Computer System Servicing	August 2023

SEMINARS & CERTIFICATIONS

• TESDA NC II – Computer System Servicing	August 2023
• Introduction to AI and Prompt Engineering.	Malate, Manila City April 11, 2025
• Empowering Tomorrow’s Technology Innovators through IoT and Data Analytics Excellence.	Alangilan, Batangas City June 6, 2025
• Future-Proof Skills: Empowering Students with Data, AI, and Analytics.	LASCA October 25, 2025
